

## David Radszuweit

Born 1974 in Sweden

[www.radszuweit.com](http://www.radszuweit.com)

### Project Management since 1996

Successfully solving critical customer projects for over 20 years.

Specialist in entering new technology projects and solving ongoing projects where companies need immediate management action and long term strategic risk management.

Using the best process methods in personnel and technology for network, server and software clients to satisfy end customers.

Possess cultural experience to lead and express change and process improvement from working in Asia to the northern part of Sweden.

My own travels and experiences makes it easy to connect to others, setting an open ground for critical thinking, with dynamic group and leadership styles.

#### *Change Management and PMI*

When I worked as a project manager for Deloitte, Tritium and Aditro with continuous improvements as an extra personal goal, my revision needed less than two weeks at a new customer to find the pieces that needed to be addressed. To implement improvements for a long-term ROI increase in is a natural trait for me. I look at the whole process and try to increase the value of the product or service as early as possible in the work flow.

At the Swedish Social Insurance Agency (Försäkringskassan), I found savings of at least 150 million a year and a large number of further proposals for a number of mobile and portal-based solutions that will lead to greater savings in the future.

#### *Examples of large organizations*

Swedish Social Insurance Agency from 2014 to 13,000 employees

Eltel Networks from 2011 to 2011 - 8,500 employees

Nr	Swedish government matrix for meeting Project Management Level 5	Met (Yes/No)	Comment
1.	Documented leadership projects	Y	<p>28+ scanning projects with Aditro as line project manager with associated BASWARE as a software solution to clients (Windows 2000 and Citrix )</p> <ul style="list-style-type: none"> <li>• 2008 - 2009 Line Project Manager 28+ projects Aditro for the integration of scanning the BASWARE, Maconomy, Visma SPCS, SAP etc.</li> <li>• Archiving Project for Telia with Aditro</li> <li>• New development of scanning techniques Aditro , specifically Telia and SL</li> </ul> <p>Reference cases :  <i>AIG 2008 Pysslingen kindergartens in 2008, Kontorsvaruhuset 2008 and CHOICE HOTELS 2009</i></p>
2.	Pre-study and change management projects	Y	<p>Insurance Agency in 2014 where savings of between 150 and 180 million per year could be refined over a period of 3-4 years at insourcing of now outsourced services. Developed new processes for barcodes and matrix of Aditro, customers Telia and SL. Worked closely with BancTec and ReadSoft during this work 2008-2009, with BancTec.</p>
3.	Project documentation	Y	<p>Specifications for the efficiency of processes activities is the basis for all projects at Aditro. Developed</p>

			requirements and framework agreements between Aditro and ÖPwC (now www.pwc.se). Developed templates for specifications for the sales group to a customer at Aditro. Documented and updated the terms of reference for 30+ projects with Aditro 2008-2009 by scanning.
4.	Project management in complex IT and business projects (with complicated means projects with multiple dependencies), minimum 5 years.	Y	<ul style="list-style-type: none"> <li>• ELTEL Networks 2011-2011</li> <li>• ADITRO 2008-2009</li> <li>• Deloitte 1996-2002</li> </ul> <i>Built Deloitte's IT infrastructure from the ground up for 5 years.</i>
5.	Project management of large IT organizations (with large means IT organizations with at least 100 employees), minimum 1 year.	Y	<ul style="list-style-type: none"> <li>• Deloitte 1996-2002 – 1 250 employees</li> <li>• ADITRO 2008-2009 – 4 000 employees</li> <li>• ELTEL Networks 2011-2011 – 8 500 employees</li> <li>• Försäkringskassan 2014 – 13 000 employees</li> </ul>
6.	Education in project management	Y	<ul style="list-style-type: none"> <li>• IPMA B – 2014</li> <li>• Praktiskt Projektledning – Att Planera – 2012</li> </ul>
7.	Level 5 project management education	Y	<b>IPMA B</b>

### Clarifications of terms

**Six Sigma** is a quality approach used by Motorola, SKF, General Electric, Toyota, to name a few. There is a major cost of introducing this principle / process and is therefore used mostly in larger companies where the ROI can be justified compared to the training cost required .

<http://cert.asq.org/certification/control/six-sigma/right-for-you>

[http://en.wikipedia.org/wiki/Six\\_Sigma](http://en.wikipedia.org/wiki/Six_Sigma)

**IPMA B** is an international certification of project managers, where B is the second highest. There should be mentioned that only 7 people holds the highest level (A) 2015 in Sweden. IPMA has become a standard in Sweden when it comes to project management and Fujitsu -Siemens has a combined course with leaders of the armed forces who are experts in conflict management and leadership.
